

# Register Multiple verification

With MyRostar you always have your current schedule at hand. Multi-factor authentication ensures that you can log in securely. Your own organization determines which MyRostar functions you use. Therefore, your own app may differ from the description here.

**MyRostar**  
Everything around your schedule

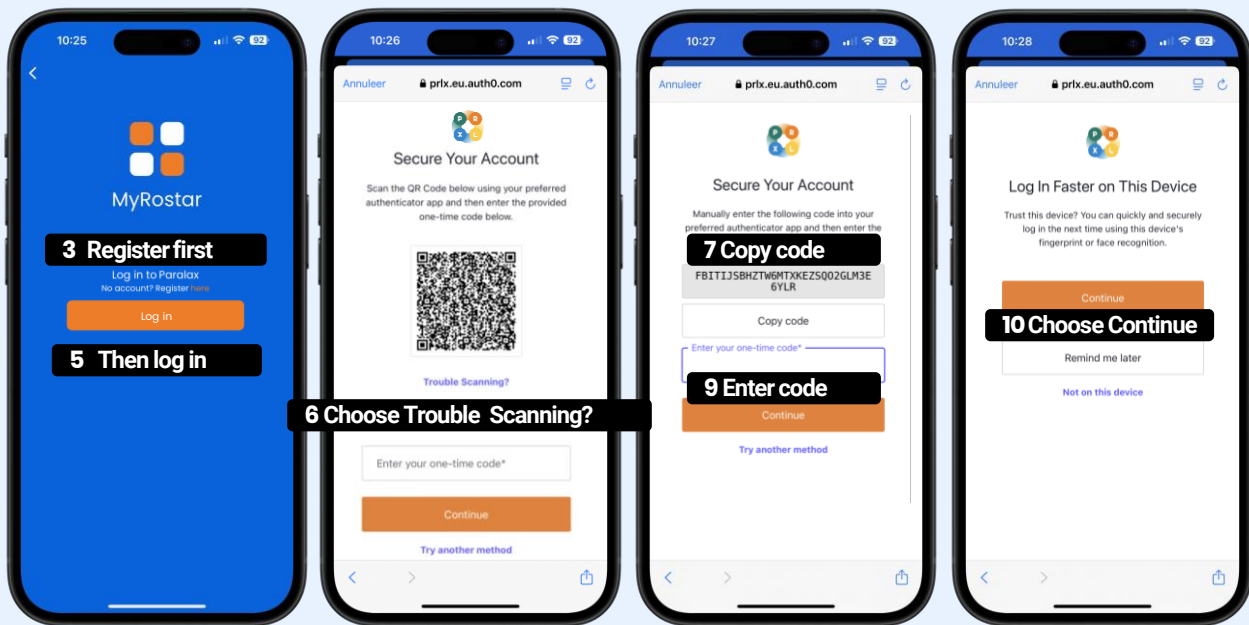

## On first use

- 1 Install an authentication app such as Google Authenticator. You need these for verification codes.
- 2 Open MyRostar and enter the organization name and organization code you received.
- 3 Register. Enter the email address you use at your organization and create a password.
- 4 Confirm your registration via the email you receive.
- 5 Continue in MyRostar. Choose **Log in** and log in with your email address and password. Give permission to use auth0.

- 6 Choose **Trouble Scanning?**
- 7 Choose **Copy code**.
- 8 In your verification app, choose **Enter setup key**, enter MyRostar as the account name and paste the key code in the field below.
- 9 Enter the generated code from your verification app in MyRostar.
- 10 Choose **Continue** if you want to log in with fingerprint or facial recognition from now on. MyRostar will then open and your schedule will appear.

## With each subsequent use

- 1 Open MyRostar. Choose **Log in** and log in with your email address and password.
- 2 Go to your verification app and copy the code. Enter this code in MyRostar.
