

Details

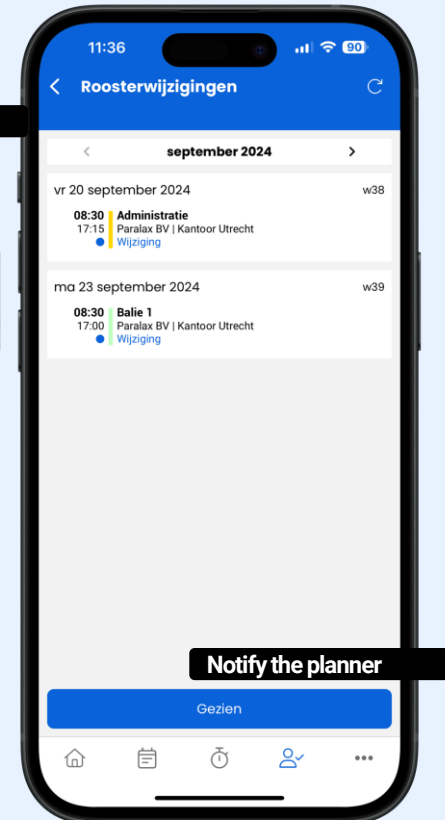

- Click on an item in your schedule and you will go to the details of that day. There you will find additional information about work and location.
- Use the + button to request leave or a change in your availability.

Navigate

- You can scroll forward and backward and quickly jump to another date via the calendar.

Schedule changes

- Via Self service you go to the list of schedule changes.
- Scroll through the items and the Seen button becomes active.
- Notify the planner separately for each month that you have seen the changes.
